SPPP Form 3 – Public Involvement and Participation Including Public Notice

Website where the Stormwater Pollution	
Prevention Plan (SPPP) is posted online:	
Physical Location and/or website where	
records of public notices, meeting dates,	
minutes, etc. are kept:	
Describe how the permittee complies with appl	
requirements when providing for public particip	pation in the development and implementation
of its MS4 stormwater program:	

SPPP Form 4 – Public Education and Outreach

This is only required for Highway Agencies that own or operate rest areas and/or service areas.

5 Point System: Each year, Highway Agencies that own or operate rest areas and/or service
areas must conduct activities related to educating the public on stormwater pollution
prevention. Sample activities include posting stormwater information on their website or
social media, running local ads, posting signs at green infrastructure sites, posting stormwater
signs, billboards, or murals at rest/service areas, presenting a stormwater related display or
materials at rest/service areas, and providing pet waste bags at rest/service areas.
Permittees must earn at least 5 points as described in Attachment B of the permit. Describe
how you are meeting the minimum 5-point requirement.
Records: Indicate where public education and outreach records are maintained.

SPPP Form 5 – Post-Construction Stormwater Management in New Development and Redevelopment Program

Major Development: How does the permittee define 'major development'?
Approval Process: Describe the process for reviewing and approving major development
project applications for compliance with the stormwater management rules at N.J.A.C. 7:8 et
seq. Attach a flow chart if available. Provide the location of the mitigation plan (if one exists)
to allow for alternative locations or designs.
Records: Indicate the location of approved applications for major development projects.

SPPP Form 9 – Herbicide Application and Roadside Vegetative Waste Management

Herbicide Application Management: Describe the program for ensuring the proper
application of herbicides. Include details about how the permittee ensures that herbicides are
not washed into waters of the State and how they prevent erosion caused by de-vegetation.
Roadside Vegetative Waste Management: Describe the program for ensuring that wood waste and yard trimmings generated by the permittee are not blown or deposited into
stormwater facilities, e.g., storm drain inlets and basins.
Wood waste and yard trimmings include the following: tree parts, brush, wood chips, leaves,
Wood waste and yard trimmings include the following: tree parts, brush, wood chips, leaves,

SPPP Form 10 – Maintenance Yards and Other Ancillary Operations

Complete a separate Form 10 for each yard/location. This includes but is not limited to all maintenance yards, impound yards, fueling locations, and yard trimming/wood waste management sites.

1.	Address of maintenance yard or ancillary operation.
2.	List all materials that are exposed to stormwater which could be a source of pollutants
	in a stormwater discharge. Indicate what type of container the materials are in, if they
	are covered, what they are placed upon, and if the area is graded or contained by
	berms. This includes, but is not limited to, raw materials, intermediate products, final
	products, waste materials, by-products, fuels, lubricants, solvents, and detergents. For
	example, brine, fertilizer, used oil, refuse containers, etc.
	•
3.	List all machinery that is exposed to stormwater which could be a source of pollutants
	in a stormwater discharge.

4.	Describe the procedures for cleaning spills and disposing of clean-up waste. Indicate the location of materials used for cleaning, e.g., kitty litter, sawdust, etc.
5.	For each category below, describe the best management practices in place to ensure
	compliance with all requirements in the permit.
	a. Fueling Operations
	b. Discharge of Stormwater from Secondary Containment

c.	Vehicle Maintenance
1	
a.	On-Site Equipment and Vehicle Washing/Wastewater Containment See permit for certification and log forms for Underground Storage Tanks.
	see permit for certification and log forms for order ground storage Tanks.
e.	Salt and De-icing Material Storage and Handling

f.	Aggregate Material and Construction Debris Storage
g.	Street Sweepings, Catch Basin Clean Out, and Other Material Storage
h.	Yard Trimmings and Wood Waste Management
Records:	Indicate the location of inspection logs and tracking forms associated with this
	ce yard or ancillary operation, including documentation of conditions requiring
attention ar	nd remedial actions that have been taken or planned. Documentation should include
the date and	d time of inspection, the name of the person conducting the inspection, and relevant
findings.

SPPP Form 11 – Storm Drain Inlets

Storm drain inlets are the point of entry into the storm drain system.

Inspections: Describe the program and frequency of inspections, cleaning, and maintenance of storm drain inlets that are owned or operated by the permittee.
of storm drain finets that are owned of operated by the permittee.
Design and Retrofitting: Describe how the permittee ensures that the current design
standards for storm drain inlets (specified in permit Attachment C) are incorporated in
development projects. Also describe how the permittee ensures that retrofitting of storm drain
inlets is completed when required.
Labeling: Describe the inspection and label maintenance plan on storm drain inlets that do not
have permanent wording cast into the design.
Records: Indicate the location of records that include storm drain inlet locations, inspection
dates, observations, and maintenance/repairs performed, if applicable.

SPPP Form 12 – Catch Basins

Catch basins are the cistern, vault, chamber or well that is usually built along a street as part of the storm sewer system to capture sediment, debris and pollutants.

Inspections: Describe the program for inspections of catch basins that are owned or operated
by the permittee.
Cleaning and Maintenance: Describe when a catch basin must be cleaned. The program
must include procedures for cleaning, and shall be implemented as frequently as necessary to
ensure, at a minimum, that sediment, trash, or other debris is removed as necessary to control
it from entering the waters of the State, to eliminate recurring problems and maintain proper
function.
Records: Indicate the location of records that include catch basin locations, inspection dates,
observations, amount of materials collected in wet tons and maintenance/repairs performed, if
applicable.
11

SPPP Form 13 – Employee Training

Employee Training: Stormwater Program Coordinator (SPC) must ensure appropriate staff receive training on topics in the chart below. Office/Entity Responsible for Training **Topic** Frequency 1. Maintenance Yard/Ancillary Operations 2. Stormwater Facility Maintenance 3. SPPP Training & Recordkeeping 4. Street Sweeping 5. Illicit Connections & Outfall Mapping 6. Outfall Stream Scouring 7. Waste Disposal Education 8. Regulatory Mechanisms 9. Construction Activity/Post-Construction Stormwater Management in New Development and Redevelopment **Records:** Indicate the location of associated training sign in sheets, dates, and agendas or description for each topic for employee training. Stormwater Management Reviewer Training: Indicate the names of all individuals who review the stormwater management design for development and redevelopment projects on behalf of the permittee. Indicate the dates on which these individuals attended the required NJDEP training course.

SPPP Form 14 – Mapping Outfall Pipes and Stormwater Facilities

Visit https://www.nj.gov/dep/dwq/msrp_map_aid.htm for the NJ DEP free mapping application. Outfall pipe maps and stormwater facilities maps may be combined. Updates to these maps shall be submitted annually to include new or newly identified outfall pipes and stormwater facilities.

Mapping Outfall Pipes: Attach an image or provide a link to a map of the outfall pipes
owned or operated by the permittee, showing the location of the end of all MS4 outfall pipes
(in tidal and non-tidal receiving waters) owned or operated by the permittee which discharge
to a surface water body. Include the location and name of all surface water bodies receiving
discharges from those outfall pipes.
Mapping Stormwater Facilities: Attach an image or provide a link to a map of the
stormwater facilities owned or operated by the permittee. Include the property boundaries of
the Highway Agency maintenance yards, ancillary operations, rest areas, and service areas as
well as an annotated map of roadways and thoroughfares owned or operated by the permittee.
The map shall include the location and type of each stormwater facility, e.g., outfalls, inlets
(constructed after Jan 1, 2020), basins, subsurface infiltration/detention systems, MTDs, green
infrastructure, etc.

Atlantic County OUTFALLS ATLANTIC COUNTY NJ 2016

Atlantic County Stormwater Inlets Along County Roadways

Click here to view map.

SPPP Form 15 – Outfall Pipe Inspections

Inspection Schedule: Describe the frequency and the program in place for inspecting outfall
pipes owned or operated by the permittee.
Stream Scouring: Describe the program in place to detect, investigate and control localized
stream scouring from stormwater outfall pipes.
Illicit Discharges: Describe the program in place for conducting visual dry weather
inspections of outfall pipes that are owned or operated by the permittee.
Records: Indicate the location of all records related to outfall pipe inspection, including the
location, inspection date, inspector name, findings, preventative and corrective maintenance
performed.
If scouring is observed, records of stream scouring must include the contributing source(s) of
stormwater, recommended corrective action, and a prioritized list and schedule to remediate
scouring cases.
If illicit discharge is observed, record results of illicit discharge investigations and actions
taken using NJDEP's form at
https://www.nj.gov/dep/dwq/public_complex/pdf/PC_Illicit%20Connection%20Inspection%20Report%20Formpdf.pdf.
Illicit Connection Inspection Report Forms shall be submitted to the Department as an
attachment to the Annual Report and Certification.

SPPP Form 16 – Stormwater Facilities Inspection and Maintenance

Inspections: Describe the program in place to inspect, clean, and maintain the stormwater
facilities that are owned or operated by the permittee.
Records: Indicate the location of records related to stormwater facilities that are owned or
operated by the permittee. Records must include the type of stormwater facility, location,
inspection date, inspector name, findings, preventative and corrective maintenance performed.
Also in direct the location of maintanance plans which discuss in the second of the se
Also indicate the location of maintenance plans related to maintenance of stormwater facilities
that are owned or operated by the permittee. NJDEP provides materials to assist with this
requirement at https://www.nj.gov/dep/stormwater/maintenance_guidance.htm .

SPPP Form 17 – Total Maximum Daily Load (TMDL) Information

Identification: List the names of the adopted TMDLs, parameters addressed, and the affected
water bodies associated with any segment of surface water wholly or partially within or
bordering all maintenance yards, rest areas, service area properties, and new major
development projects as defined by the permittee's stormwater program.
Refer to the list of TMDL reports provided at http://www.nj.gov/dep/wms/bears/tmdls.html .
Utilize the TMDL look-up tool at https://www.nj.gov/dep/dwq/msrp-tmdl-rh.htm to identify
impaired water bodies at locations described above.
Strategies: Describe how the permittee uses TMDL information to prioritize stormwater
facilities maintenance projects and to address specific sources of stormwater pollutants. For
guidance on TMDLs, visit https://www.nj.gov/dep/dwq/pdf/10-21-16-tmdl-tool-box.pdf .

SPPP Form 18 – Additional Measures and Optional Measures

Additional Measures: Describe any Best Management Practice(s) and the related measurable	
goal or numeric effluent limitations that are expressly required by the Department to be included in the permittee's stormwater program by a TMDL.	
included in the perintitee's stormwater program by a TMDL.	
Optional Measures: Describe any Best Management Practice(s) the permittee has developed	
that extend beyond the requirements of the permit that prevents or reduces water pollution.	

SPPP Form 19 – Shared or Contracted Services

Arrangements: List the permit conditions that are satisfied through a shared or contracted
service where an entity other than the permittee is implementing BMP(s) or control measure(s)
on behalf of the permittee. Include the name of the responsible entity and describe the
arrangements in place.
Records: The permittee is responsible for maintaining the appropriate documentation related
to permit conditions, including those satisfied through shared services, in the SPPP and on the
Annual Report and Certification. Indicate the physical location of the written agreements and
records.
